Mehdipatnam, Hyderabad | annaboinalaxman6@gmail.com | **8179318596**

Full Stack Developer | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years of experience** in building scalable, user-centric applications using **React.js, Next.js, Node.js, Express.js, and MongoDB.** Skilled in designing **RESTful APIs, database modeling, responsive UI development**, and seamlessly integrating frontend & backend to deliver high-performing web solutions. Passionate about writing clean, maintainable code and delivering robust, production-ready full stack applications.

SKILLS

Frontend Technologies: React.js | Next.js | TypeScript | JavaScript (ES6+) | HTML5 | CSS3 | Redux Toolkit | Bootstrap | Material UI | Styled Components | Ag Grid | Tailwind CSS

Backend Technologies: Node.js | Express.js | MongoDB | REST APIs | Mongoose | JWT Authentication

Databases: MongoDB | MySQL

Cloud & DevOps: Docker | Heroku | Netlify | CI/CD

Testing: Jest | Unit Testing | Postman API Testing

Version Control & Collaboration: Git | GitHub

Development Tools: VS Code | Postman | MongoDB Compass | Chrome DevTools

WORK EXPERIENCE

Full Stack Developer   **May 2023 – Present (2 years 4 months)**

Brewcode Technology | **Miyapur, Hyderabad.**

- Spearheaded high-performance web application development using **React.js, Next.js, TypeScript, and Redux Toolkit**, improving load times by **30%** and application responsiveness by **20%**.
- Optimized SEO and performance by implementing **SSR and SSG**, resulting in a **25% improvement** in page load speed and higher search engine rankings.
- Mentored junior developers and conducted code reviews to ensure high code quality and adherence to best practices within an **agile environment**.
- Built and maintained **RESTful APIs** with **Node.js and Express.js** to support user authentication, CRUD operations, and third-party integrations.
- Designed and optimized **MongoDB schemas** for scalable data storage and retrieval.
- executed **server-side rendering (SSR)** and **API-driven architectures**, reducing latency and improving SEO.
- Collaborated across teams to deliver **end-to-end features**, from database modeling to frontend UI integration.

Projects

Task Manager Application (Full Stack)   **Live Demo**

- Developed a **Task Manager app** with **React.js (frontend)** and **Node.js, Express.js, MongoDB (backend)**.
- Features included user authentication (JWT), role-based access, task CRUD operations, and REST API integration.
- Implemented **secure password hashing (bcrypt)** and **form validations** for better security and UX.
- Deployed on **Render/Heroku** (backend) and **Vercel/Netlify** (frontend).

Husker Tennis (Full Stack Project)   **Live Demo**

- Built a **scalable Husker Tennis platform** using **Next.js** for frontend and **Node.js, Express.js, MongoDB** for backend, enabling smooth end-to-end data flow.
- Enhanced SEO and performance by implementing **SSR and SSG**, improving page load speed and search rankings.
- Designed **REST APIs** for player stats, matches, and real-time updates; integrated with frontend to ensure seamless user experience.
- Reduced data loading times by **40%** with **Redux Toolkit** for state management and **Material-UI** for responsive design.
- Implemented **Styled Components** for modern UI themes and improved user engagement.

EDUCATION

Government City College — B.Com (Computers)
Osmania University, Hyderabad | Sep 2015 – Apr 2018

Royal Junior College — Class XII (Percentage: 69%)
Hyderabad | Jul 2013 – May 2015
